

Don't Swap Horses in the Middle of the Stream.

Every loyal American citizen knows that this is a critical hour in our nation's history.

Every loyal American citizen knows that NOW is the time when he must put his country's needs above every other interest.

Every loyal American citizen knows that President Wilson must have the united support of our entire country if he shall be able to complete the splendid work which he has already started.

Every loyal American citizen knows that if we do not return a Democratic Congress, in both the House and Senate, this failure will be understood by our Allies and by our enemies as meaning that our people are not solidly in favor of beating Germany to her knees begging for OUR peace.

Every loyal American citizen knows Joe Russell has kept faith with us. Let us keep faith with him by returning him to Congress.

Joe Russell has solidly supported the President in representing our country's needs.

Joe Russell has served staunchly and faithfully his country's best interests.

Joe Russell has consistently represented the best interests of his district throughout his entire record in Congress.

Joe Russell is needed in Congress because he is doing his work so well and by his record has made himself A member of Congress that our whole country, the president, and this district needs there.

Can any man show one good reason why Joe Russell should be retired?

Will any reasonable man say our country's interests will be better safeguarded by retiring Joe Russell?

Does any reasonable man advise the voters of this district to run the very dangerous risk of swapping horses in the middle of the stream?

Stand by the President---he is standing for you.

Stand by your country---it is yours and it is the best country on earth.

Stand by our boys at the front---they are fighting and dying for us.

Stand by your own best interests by presenting a united front to our enemy---Germany.

Stand by Joe Russell---he is standing by you.

Vote for Joe Russell for Congress.

Don't Swap Horses in the Middle of the Stream.
